

LEGO EV3 competition rules

Fall 2015

1. Only materials contained in the LEGO core set can be used
2. Groups cannot exchange or share material
3. The equipment must be kept clean and organized
4. Everyone in a group is equally responsible for the equipment
5. Report any equipment issue immediately
6. On the competition days, groups must be prepared to present their robots without any delay
7. Equipment will be stored by faculty at SCCC, and it can never be taken outside campus
8. In the period between competitions, equipment will be provided by a faculty member, and can only be used under faculty supervision
9. Material can always be provided on Wednesdays during common hour
10. However, outside common hour, faculty and groups must agree on a common schedule. There will be a maximum of 2 supervised meetings (outside common hour) per week in between competitions
11. All equipment must be returned to the supervising faculty at the end of the scheduled meeting

If any of these rules is broken, groups may be suspended from the competition.
